Planners OK Two Tracts, Hold Third

Two tracts containing 25 lots were recommended for approval by the Torrance Planning Commission and a third was held over pending clarification of location of power poles in the area.

The school board also indicated that it was interested in Tract 20944, located southwest of 166th and Arlington Ave. A letter from the board termed the tract "the only good school site in the area." However, the tract, proposed for 59 lots by Mira Monte Homes, Inc., was held up by Planners pending a clarification of this issue and the pole question.

Two other tracts, both presented by Wayne Wilson, were recommended for approval with certain conditions.

Tract 22795, south of 168th St. and north of Tract 20027, containing 11 lots, got a green light.

Also OK'd was Tract 22771, southeast of 168th and Kornblum, if power poles are placed at the rear of the lots and five feet is dedicated to the city to widen 168th St.
